EDUCATION

BS in Computer Science
St. Nicolas College of Business and Technology
June 2016 - March 2019

2-year Computer Programming
St. Nicolas College of Business and Technology
June 2014 - April 2016

SKILLS

PHP / Laravel
Python / FastAPI
Vue.js / Inertia.js
JavaScript / React / Next.js
MySQL / PostgreSQL
Docker / Git
PDF generation / Workflow design
AI-assisted app building
AI for brainstorming and planning
Data analysis fundamentals

ELIGIBILITY

Career Service Professional
March 13, 2022 · Muntinlupa
Rating: 82.5%

RECOGNITION

WorldSkills Kazan (2019)
Team Philippines · IT Software Solutions for Business

Medallion for Excellence · ITSSB (2018)
WorldSkills ASEAN Bangkok

PROFILE

Full-stack developer focused on dependable enterprise systems and clear digital workflows. Builds Laravel, Vue, and Python applications for public-sector performance management, recruitment, personnel records, document automation, and AI-driven training recommendations.

EXPERIENCE

Full-Stack Developer
TESDA
November 2022 - Present

• Stack: Laravel 12, Vue 3 + Inertia, Python / FastAPI, React, MySQL, PostgreSQL + pgvector, Docker.
• Built TESDA-TRACK, an AI-driven training and assessment center recommender using a fine-tuned multilingual embedding model.
• Built PCR Management, HRIS, Application Exam Management, Job Application, and ARTA Client Survey systems.
• Automated Personal Data Sheet generation with QR verification.

Freelance work
Independent
April 2022 - October 2022

IT Support Staff
TESDA Region IV-A
January 2020 - March 2022

PROJECTS

TESDA-TRACK
FastAPI + PostgreSQL · pgvector embeddings · React 19
• AI-driven training and assessment center recommendations. Match a learner's goal, in English, Filipino or Taglish, to TESDA qualifications, then rank nearby training and assessment centers with an explained score.

Application Exam Management
Laravel 12 + Nova · Vue 3 + Inertia · Excel import
• From a competency-based question bank to randomized applicant exams and automatically scored results.

HRIS Process
Laravel 12 · Vue 3 · MySQL
• Connect offices, plantilla positions, employee records, and daily time records in one personnel workflow.

Silver Medal · ITSSB (2017)
Zonal Skills Competition

Gold Medals · ITSSB (2017)
Regional and Provincial Skills Competitions

INTERESTS

Traveling, running, watching anime, gaming, and reading.

Job Application
Laravel 12 · Vue 3 · Scoring engine
• Follow an applicant from finding an opening and submitting requirements through assessment and appointment.

PCR Management
Laravel 12 · Vue 3 + Pinia · Reverb live sync
• Set office commitments, track monthly accomplishments, rate performance, and approve the final report.

PDS Generation
Laravel 12 + Vue 3 · PDF generation · QR verification
• Turn personal information, education, work history, and training records into a print-ready Personal Data Sheet.

ARTA Client Survey
Laravel 12 · Inertia + Vue · Laravel Excel
• Collect client feedback through office QR links, monitor responses, and generate regional or nationwide satisfaction reports.

Zepimon (personal project)
Zepp OS watch app · Expo / React Native · Supabase sync
• A Pokémon walking game for Amazfit watches. Eggs hatch at 5 km and evolve as you go, with a phone app for the Dex, missions and expeditions.
